## The Very Hard Book

Idan Ben-Barak, Philip Bunting

### Summary

**A very silly book that will seriously get kids thinking from the award-winning and internationally bestselling author of *Do Not Lick This Book* and the award-winning and bestselling creator of *Give Me Some Space*.**

Can you ...

Forget this line?

Dig half a hole?

This book asks you to imagine and think about some things. That sounds easy, right? Anyone can think stuff. You don't even need to be standing up. We shall see. Good luck.

Metacognition is the act of thinking about thinking and forms the basis of all critical thought. It is also a concept that comes easily to children whose inquisitive nature makes them a natural at engaging in abstract questions and open-ended thinking. *The Very Hard Book* starts that 'thinking' journey and has a great deal of fun in the process.

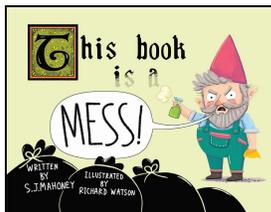

### Contributor Bio

**Idan Ben-Barak** writes science books, usually for children; they've been translated into about twenty languages and published around the world. *Do Not Lick This Book*, which he created with Julian Frost, was an international hit and won the CBCA Eve Pownall Award. Idan holds degrees in microbiology and in the history and philosophy of science, a diploma in library studies, and a day job that has very little to do with any of the above. He lives in Melbourne, Australia with his family. Sometimes, after they go to bed, he plays his guitar a little.

**Philip Bunting** is an author and illustrator, with a soft spot for creating picture books for sleep-deprived.

### Summary

This is a story with nothing in it, thanks to its tiny caretaker, who appreciates a clean and tidy book. According to him, a clean and tidy book means there are no words and absolutely, positively NO PICTURES. So, all the pages of this book should be kept spotless. ## Mo's Best Friend

A Stone-Age Story

Bridget Marzo

### Summary

**A charming story of a stone-age family who discover the first dog – inspired by real prehistoric cave art**

Mo is a little girl who lives with her family in the Stone Age, and her main task is to keep an eye on baby Babba – a fast crawler. Up on the hill she has a secret den of her own and one day she hears something odd, a 'Yip' coming from a bush. It's a small wild beast.

Mo knows that wild beasts are dangerous, but this one is in trouble, with a thorn in its paw. Brave Mo takes out the thorn and the little beast becomes her friend. But Mo's family are horrified by the strange creature. They scare it away and in the excitement baby Babba disappears.

Then they hear a "Woof! Woof!" Oh no! But it's not what they think – Mo's friend is defending Babba from a hungry lynx. From then on the whole Stone Age family has a new friend, and they decide to call it – DOG.

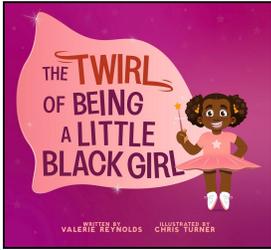

**This story is inspired by the astonishing recent discoveries in the famous Chauvet Cave in France's Ardèche department. The footprint of a young child has been discovered, with what is believed to be the paw-print of a dog beside it. They are from 26,000 years ago.**

## The Most Famous Rhinoceros

Dianne Hofmeyr, Simona Mulazzani

### Summary

**A moving and beautiful story inspired by a work of art, Albrecht Dürer's celebrated woodcut print of the rhinoceros sent from India to Portugal in 1515**

Princess Beatrix is excited to meet the amazing one-horned creature that has been sent as a gift to her father, the King of Portugal. Could it be a unicorn?

But the new animal is not a unicorn – it's a rhinoceros called Genda, who has traveled all the way from India, and Beatrix immediately loves him. She becomes Genda's friend and protector, and is determined to persuade her father the King that this wild creature should be returned to his jungle home.

This poignant story is inspired by the real rhinoceros depicted in 1515 by Albrecht Dürer in his world-famous woodcut, which can still be seen today.

## Miracles and Magic

### When a Child Sleeps

Dr Ricco Swinbourne, Dangergene Whitlock

#### Summary

#### Sleep science for children meets *The Jungle Book*

*Miracles and Magic: When a Child Sleeps* engages parents and children alike with the idea that sleeping is a biological miracle, and nature teaches us how and why to sleep naturally.

In this beautifully illustrated story, two children, resisting sleep as children do, become fascinated in the possibility that sleep is exciting and that an adventure awaits! As the children drift thru the dreamy realms of jungle and sea, they encounter a number of animal friends who teach them why sleep is important, how to fall asleep and stay asleep longer. Each animal in the world has a natural superpower it gets from sleep, which children can also absorb when they sleep too!

It is during sleep that children grow, learn, develop and glow. In a world where children and adults alike do not sleep enough, this book provides the "why and how to sleep" in an imaginative, colorful way that parents and children can explore together.

## The Panda Cub Swap

Anne Belov, Beth Bacon

### Summary

FIRST PLACE WINNER OF THE LITTLE PEEPS - CHANTICLEER BOOK AWARDS It takes a lot of work to bring a panda cub into the world. They are born with delicate pink skin, they're unable to see, unable to walk— and even unable to go to the bathroom without help! It's so much work that panda mamas can only take care of one cub at a time. So when Zoo Atlanta's beloved giant panda, Lun Lun, surprised everyone by having twins, the zoo staff had to pitch in. They made a plan to share parenting duties with Lun Lun. Every few hours the zoo staff swapped the cubs between Lun Lun and their workroom to make sure the cubs got equal time with mom. It was hard work, and Lun Lun didn't even know she had twins! The cubs ate and slept, opened their eyes, and grew beautiful black and white coats. Fans watching around the world submitted name ideas for the cubs. Everyone cheered as the cubs took their first steps. As the cubs grew larger and more independent, excitement grew about their upcoming reunion. Would Lun Lun accept them when she finally met them both? Luckily, for Lun Lun, motherhood came naturally.

## The Magic Ticket

David Hicks, Kateri Kramer

### Summary

When his beloved sister dies and his parents are too grief-stricken to attend to him, a little boy must figure out on his own how to process what has happened. Could reading be the gateway to understanding, and coping with, such a devastating loss? David Hicks (author) and Kateri Kramer (illustrator) have created a tender and moving tale of loss, grief, and the healing power of storytelling, "a love letter to story, to books, and to libraries as a space to nourish both mind and heart" (Maria Mayo, Anythink Libraries). ### Summary

Opening the bridge between Auradon and the Isle was the easy part – bringing two disparate cultures together will be the real challenge that Mal must face. Realizing that she needs help, Mal brings on as consults the two people who best personify their respective homes: Audrey for Auradon and Uma for the Isle of the Lost. They're charged with helping Mal introduce their own cultures to a whole new audience... but how?

As far as Mal sees it, they can only really truly understand the issues that the people of Auradon and the Isle of the Lost will face by first experiencing it for themselves, which means that Audrey will need to live a day in Uma's life on the Isle and Uma in Audrey's shoes in Auradon. This experience – full of embarrassing missteps and unexpected situations – opens up Audrey and Uma's eyes to just how inattentive they'd been to the challenges faced by those who'd grown up elsewhere and inspires them to join forces with Mal to find a better solution to truly integrate their cultures.

## Zooming the Zoo

John Dougherty, Tom Morgan-Jones

### Summary

**The author of *Stinkbomb and Ketchup-Face and the Badness of Badgers* and the illustrator of *The Boy Who Biked the World* team up for a hugely entertaining new collection of poems for children**

*Suggesting this zoo hold a meeting on zoom  
Was not sensible, wise or astute  
For the sloths all appear to have frozen onscreen  
And I think that the swan's stuck on mute.*

Poems that play with words and ideas are John Dougherty's specialty.

Meet Rover, the dog "who'll chew through anything, except the things we let him chew", enjoy Grandad's wrestle with the deckchair (it won), find out what the Ghosts of Grizzerley Grange are really scared of, admire the woman who's made out of rainbows and steel, and be shocked by the Man of Naughtiness.

Comedy abounds, but there is also much good advice and mindfulness to be found in this feast of varied verse:

**"Please know that this is true: You're important. You matter. It's okay to be you."**

### Contributor Bio

**John Dougherty** was born in Larne, Northern Ireland, and some of the poems in this collection reflect his childhood there. He became a teacher (the nice sort, he says) but gave up teaching to become a full-time writer and performer, of songs as well as poems and stories, and now has over forty books published.

**Tom Morgan-Jones** also illustrated John's previous collection for Otter-Barry Books, *Dinosaurs and Dinner Ladies*. A professional illustrator, author, events artist and inky hand-letterist, he has illustrated over 75 books and series for children.

## Mary Anning and Paleontology for Kids

Her Life and Discoveries, with 21 Activities

Stephanie Bearce

### Summary

**Mary Anning was only twelve years old when she excavated the skeleton of an unknown animal.**

The discovery of the ichthyosaur was the dawn of a new age of science called paleontology, and Anning became one of the leading experts in the study of dinosaurs. Her discoveries helped lay the groundwork for Charles Darwin's theory of evolution and changed the way scientists understood the past.

Unfortunately, as a woman of the 1800s, her contributions were overlooked and instead credited to male naturalists who had purchased specimens from Anning.

Author Stephanie Bearce brings her remarkable work to life for young readers with research and projects that allow children to experience hands-on science as Anning did.

**With the help of modern historians, Anning's groundbreaking work and ideas have been brought to light and she now takes her place as one of the pioneering scientists in the discovery of dinosaurs.**

## The Glow

Sofie Laguna, Marc McBride

### Summary

**Megan and her best friend Li must team up and draw on all their creativity and courage to defeat a strange monster that threatens their town.**

*Megan kept drawing. The drawing seemed to have a mind of its own. She felt herself begin to panic. She wanted to stop. But her hand didn't stop. Please, could she stop. Stop!*

Megan is obsessed with drawing fantastical creatures and she shares them with her best friend Li who writes stories to go with the pictures. They are kindred spirits with big creative dreams.

One day everyone in town - except Megan and Li - is immobilized by a strange glow coming from their phones. Megan and Li are initially frightened and alarmed, but when they realize they are somehow immune, they set out to seek help.

Soon a battle unfolds, a thrilling battle that pits all of their creative energies against the terrible monster that has ensnared everyone else around them.

A wonderfully spooky novel from one of Australia's finest writers, and beautifully illustrated by Marc McBride.

'McBride's illustrations take centre stage in this story, no doubt captivating those who love to draw and even those who don't. Not one for those who scare easily, *The Glow* keeps the reader guessing the resolution of the all-encompassing and menacing glow until the very end ... **this new middle-grade novel is imagination at its best.**' *Books & Publishing*

**Dee and Holt think they've found safety, but together they must face new dangers to reunite the humans of Mars in this heart-stopping, page-turning sequel to *Mars Awakens*.**

When Dee brought Holt home to Davinci colony, there was a new sense of hope for human life on Mars. A new Y had been found - a precious boy - and more than that, there was a whole settlement still surviving at Newton. It felt like they were saved.

But now? There's been no mission organised to go to Newton. Dee is on punishment duties, and Holt and Chayse are kept hidden away with the fragile Futures. Dee is destined to join them in a prison-like life of isolation, unless they can take matters into their own hands.

Dee, Holt and Chayse set out to cross the planet to Newton via a network of subterranean tunnels. Can they reach it without encountering the Others - the sinister biocloud they've been running from? And if they make it, can they convince the Newtonians to work with Davinci - those they've been trained to hate?

**A thrilling and imaginative conclusion to the Mars Duology.**

## The Ascenditure

Robyn Dabney

### Summary

Klarke Ascher has a singular goal: to become an Ascenditure, a member of the kingdom's elite climbing team who scale the treacherous peaks of Miter's Backbone in search of an elusive medicine to treat the lung sickness that ails the populace. However, in a kingdom governed by centuries of tradition, where women are legally bound to home and hearth, owned by the men they are forced to marry, the Ascenditures have always been male. As the strongest climber of her generation, Klarke's skill and strength are undeniable, and her courage and persistence prompt a civil uprising to which the king is finally forced to concede. Klarke's fight for justice, however, quickly becomes a struggle for survival as fellow Ascenditures, one by one, are inexplicably murdered. For danger lies not only on the icy peaks of treacherous mountains, where ropes are cut and routes are compromised, but in the very halls of power. ## New Eden

Ruth Fox

Kim Teng is shepherding Earth's last whales to their new home planet, but the arrival of the whales is far from peaceful, and their new home might not actually be uninhabited.

### Summary

**The fight for the future of the whales has just begun.**

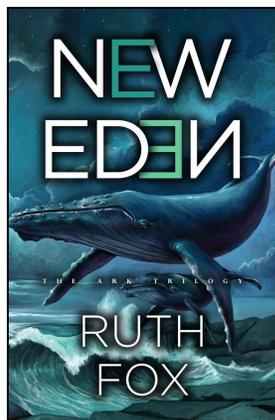

Kim Teng is committed to escorting Earth's last whales to the paradise planet of New Eden. ## Vaulting Through Time

Nancy McCabe

Sixteen-year-old gymnast Elizabeth finds herself catapulting through time in order to solve the mystery of her own birth and stop a fellow time traveler whose actions may prevent her from being born.

### Summary

**Can she perform the vault of her life to save her loved ones—and herself?**

Sixteen-year-old gymnast Elizabeth Arlington doesn't care that her mother is older than the other girls' moms or that she doesn't look anything like her parents. She has too much other stuff to worry about: an embarrassing crush on her ex-best-friend Zach, and changes in her body that affect her center of gravity and make vaulting and tumbling more terrifying than they used to be. But when she makes a discovery that throws her entire identity into question, she turns to Zach, who suggests a way for her to find the answers her mother won't give her: a time machine they found in an abandoned house.

As Elizabeth catapults through time, she encounters a mysterious abandoned child, an elite gymnast preparing for Olympic Trials, and an enigmatic woman who seems to know more than she's revealing. Then when a thief makes off with an identical time machine, Elizabeth finds herself on a race to stop the thief before the world as she knows it—and her own future—are destroyed.
